PETITION TO ACCEPT COLOR PHOTOGRAPHS AS PART OF A UTILITY PATENT
UNDER 37 CFR 1.84(b)(2)

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

Applicant hereby submits the replacement drawings for the above-captioned application. Also submitted is this written petition to accept color photographs as part of the application in accordance with the requirements of 37 CFR 1.84(b)(2). As additionally required by 37 CFR 1.84 (a)(2), included with this petition are: (1) the fee of \$130 as set forth in 37 CFR 1.17(h); (2) color drawings in triplicate; (3) a black and white photocopy that accurately depicts, to the extent possible, the subject matter shown in the color drawings; and (4) an amendment to insert the required language as the first paragraph of the Brief Description of the Drawings.

Applicant believes that color drawings are necessary as the only practical medium by which to disclose the subject matter sought to be patented in the accompanying utility patent application because these figures most accurately disclose the features of the cold gelling pastry glaze. In particular, they show the nice cut-ability of the gel when poured over fruit compared with the conventional gelling glaze.
